Recommendation for Indra Adhwa

To whom this may concern,

Indra Adhwa worked as a retail associate at Pedro IMM under my supervision for about 6 months. As a retail associate, Indra is responsible for assisting customers as they shop within a store. His duties include greeting customers, answering questions related to the merchandise and store policies and locating items for customers.

Despite being a part timer, he has consistently impressed me with his attitude and enthusiasm. He was very passionate when attending to the customers. He was willing to learn more to smoothen the process and takes the initiative to do the task without needing to be asked. Indra is a friendly and motivated individual who is dedicated in improving himself and his work.

There are multiple occasions where customers praised him for the way he conduct himself. There were instances where customers were surprised that he was a part-timer. Most customers even assumed he was a full time employee of Pedro by the way he serves them and engage with them.

I whole heartedly recommend Indra for employment under your organization. No matter where he is placed, I am confident Indra will excel and will be an asset to your organization.

Regards,

Wee Kian Tan
